

*Budget model  
with no  
concessions*

## diz1700 series

Experience  
the charm of  
simplicity

Little  
space  
needed

The diz1700 series includes highly budget-friendly information kiosks with a smart design. Despite the low price level no concessions have been made in terms of quality and deployability. The slimline design has a modern look and feel.

The diz1700 series features a VESA mounting system that was specially designed for our P-CAP multitouch screens, which can be installed in both portrait and landscape formats, guaranteeing a precise and pleasant user experience.

*Looking for a practical digital solution? You'll be amazed by the affordable price point of these budget kiosks with multitouch screens.*
