

Self-service order kiosks

Take your online shop to the next level with our self-service order kiosks. Satisfied customers, no more queue time and all products can be ordered easily, fast en secure. We'll make your customer feel right at home!

Create extra points of sale and prevent your customer from going to the competition. Do you also want to generate a higher turnover and have satisfied customers and happy employees? Never turn down a sale again? Contact us for appropriate advice.

With an interactive order kiosk you have an additional point of sale without the deployment of additional staff. Your complete online range and options are now available in-store. Your store remains an important destination for your customers and offers an intensive customer experience.

Whether you want to be able to offer a physically sold-out item in your store, or want to give your customer a quick and efficient easy-order option in your restaurant, diz is your partner.

Easy-order kiosk

Please also check out our new easy-order kiosks. Perfectly usable in your restaurant, fast food store or retail location.

These budget-friendly and modern kiosks ensure a significantly higher order value! The fast food sector has embraced these easy-order kiosks, the added value is already proven!

- ✓ With a self-service order kiosk queues vanish and lost sales are avoided.
- ✓ Personalised order environment and upselling.
- ✓ With the aid of technology your employees have more time for other tasks and direct contact with customers.
- ✓ Maximum efficiency and higher order values.
- ✓ Achieve growth with digitisation and our tried and tested self-order kiosks.

diz is manufacturer of the renowned easy-order kiosks, retail kiosks and self-service POS solutions. With over 20 years of experience, we are your partner in the deployment of public-proof, digital and interactive products.

Thanks to our experience we are able to give you knowledgeable advice. As a manufacturer, we can easily produce the products in a design and style you want, equipped with the components you require.
